About Keti Sharif's AstroBelly DVD

AstroBelly instructional section in studio:

1.15 hour instructional DVD begins with AstroBelly routines danced on the beach in white gypsy costume. In the Cairo studio, dressed in simple black exercise wear in front of the zodiac backdrop, Keti explains each routine fully from the front, back and then dances it to drums. Following each set of three zodiac signs are danced as a short drum trio.

AstroBelly Drum Solo performed in the studio shows how the entire 12 routines are danced in sequence to MoonRise's hot drum track 11 - a track especially created for AstroBelly with EVERY single ACCENT, shimmy and percussion feature synchronizing with the accents in the routines, so you can see how the drum choreography is created.

Using veil with AstroBelly routines in the studio, Keti shows how the veil is used with all 12 AstroBelly routines in an Indi-fusion veil dance from Sundance track 4 (Bomb A).

plus THREE FILMCLIPS filmed on the Red Sea, Egypt:

AstroBelly Saïdi Desert Cane Dance from SunDance track 8 (Purr-caution) filmed in desert with bedouin drummers and uses saïdi cane with the routines. Ketisharif wears a black and silver assuit dress.

AstroBelly Indi-Fusion Veil Dance filmed on beach from Sundance track 4 (Bomb A) - shows how to use the veil dramatically with each routine. Ketisharif wears a white gypsy costume and uses a red veil.

AstroBelly Classical Bellydance is the finale - a romantic classical Oriental style choreography filmed in a Moroccan courtyard with Ketisharif in a turquoise bellydance costume. The music is the track created especially for AstroBelly - "MoonRise" track 1 from MoonRise cd. It emphasizes the qualities of each sign of the zodiac and flows into a lovely choreography for stage.

New AstroBelly Music from Cairo

New Music - MOONRISE CD - Omar Kamel's new Cairo dance music blends classical melodies and electronic rhythms. Atmospheric tracks that cast a hypnotic spell for dance, trance and late-night ambience.

Tracks 1 (classical) and 11 (drums) used in AstroBelly DVD.
